Adjoining the parlor on the north is the library, a pretty room done in rose pink, and with tempting cases and shelves of books as a distinguishing charm. the roll call. Chicago club women have begun their work of beautifying right in town. They have adopted and adapted small parks and devoted their energies to making urban sites slightly. Massachusetts club comen have started high-er, as it were. They are making a raid on sign posts. In the interests of art and utility the arts and crafts committee of the state federation have reselved themselves into animated guides to point the way to esthetic things. The women have begun outside the towns, and the ugly sign-post has got to go. That the women are in earnest is proved by their offering prizes for posts that shall be both beautiful and practical. Index fingers are barred, and it is expressly mentioned that the traveler who prefers jogging along the ditches shall be able to read where he is stoing to or coming from as well as is going to or coming from, as well as the more conventional one. After this, town councils are not appreciative, nothing will be left for the women but to take the men into their clubs and educate them.
